ABOUT THE RACIAL EQUITY INSTITUTE: PHASE 1
Racism is a complex and persistent issue. This two-day experience begins a process for those wishing to proactively address racism, understand how racism affects everyone, and build a community that works for everyone. Each part of the training builds on the previous section as participants explore how we came to today's racial climate and what might be done to change it.

This Racial Equity Workshop is not focused on personal bias or bigotry: it is a historical, cultural, and structural analysis of racism. It is not designed to place blame on individuals. It is a description of how institutions and systems produce unjust and inequitable outcomes. It does not dwell on personal feelings and popular opinion. It gives a clear and comprehensive history of the roots and causes of racism.
